

In the Specification:

On page 1, after line 2 (the title), kindly add the following:

CROSS-REFERENCE TO RELATED APPLICATIONS

This application is a continuation of U.S. Patent Application Serial No. 09/548,952 filed April 13, 2000 entitled "Method for Transferring Transparent Conductive Film".

In the Claims:

Kindly cancel claims 4 and 5 without prejudice.

Kindly rewrite claims 1 and 6 as follows:

1. (Amended) A method for transferring a transparent conductive film onto one surface of a sheet base material made of a plastic material, wherein said transparent conductive film as an object to be transferred is preliminarily formed on a substrate which is superior in heat resistance to the plastic material, said transparent conductive film being sandwiched between a peelable layer which can be peeled off at the time of transfer and a protective film for protecting said transparent conductive film on said substrate which is superior in heat resistance to the plastic material.

6. (Amended) A transferring method according to claim 3, wherein said transparent conductive film is an electrode of a liquid crystal color display unit, a color filter layer for color display is formed on said protective film and said adhesive layer covers said color filter layer.
